

WEDNESDAY 20 JUNE 2018	
	Chair: D. Campbell
09:00 – 09:30	Steven Anlage <i>Nonlinear rf SQUID Lattices.</i>
09:30 – 10:00	Mikhail Fistul <i>Collective quantum phenomena in superconducting qubits arrays</i>
10:00 - 10:30	Johanne Hizanidis <i>Flux bias-controlled spatio-temporal dynamics in SQUID lattices</i>
10:30-11:00	Yosuke Watanabe <i>Experimental study on interaction of mobile localized oscillation with onsite potentials in a mass-spring chain</i>
11:00– 11:30	Coffee Break
	Chair: M. Segev
11:30 – 12:00	Konstantinos Makris <i>Shaping of light in Non-Hermitian scattering media</i>
12:00– 12:30	Ramy El -Ganainy <i>Non-Hermitian wave-mixing without phase matching</i>
12:30 – 13:00	Anastasios Bountis <i>The Effect of Long Range Interactions on the Dynamics and Statistics of Hamiltonian 1D Lattices</i>
13:00– 13:30	Ramaz Khomeriki <i>Landau-Zener tunneling of solitons</i>
13:30 – 15:30	Lunch Break -Free Period
	Chair: A. Saxena
15:30 - 16:00	Eleni Christodoulidi <i>Equilibrium times in the Fermi-Pasta-Ulam system for various classes of initial conditions</i>
16:00 - 16:30	Masayuki Kimura <i>Moving Intrinsic Localized Modes in Perturbed Pairwise Interaction Symmetric Lattice</i>
16:30 – 17:00	Sergey Dmitriev <i>Features of surface discrete breathers in biatomic alloys</i>
17:00- 18:30	POSTER SESSION in the Lobby of Building A
17:30-18:30	RISE Internal Meeting for participating NHQWAVE members
18:30- 20:00	“Socrates’ Apology”, theatrical play written by Plato approx. in -397
20:00 –	Workshop dinner at AKSS (open air)/Music/Dance
